

The DIY Balloon Birthday Bible: How To Decorate For Birthdays, Picnics, Family Parties, and Any Other Fun Event! (The DIY Balloon Bible) (Volume 3)

Have you ever gone to a party or event and seen the fabulous balloon decorations and thought How do they do that? This book is packed with over 40 designs that can be used to decorate any type of event! Though the central theme is birthdays, if you change the color scheme and change the foil balloon, you get an entirely different look! Even better, NO HELIUM REQUIRED! All of the projects in this book use common air, so theres no expensive gas to buy. Be the hit of every party and have fun at the same time! To make it even easier to master the techniques taught in this book, every chapter has a link to a video showing how to make the design step- by- step. Please note that the paperback is black and white. However, every recipe has a full color companion video, so you can see everything in technicolor. Author Sandi Masori, CBA has been called Americas Top Balloon Expert by the media. Sandi has been in the balloon industry since 1994 and began making educational videos for the industry in 2002. Shes authored 4 best-selling books on balloons and has made numerous local and national tv appearances talking about balloons and showing what can be done with them. When shes not decorating events with her local balloon company, Balloon Utopia, shes either writing the next book, recording how- to videos at You Tube, or hanging out with her kids.
