

## Weldons 2D #362 c.1915 - Modern Applique (Weldons Practical Needlework)

15 Pages. This edition of Weldons instructs in the lovely art of Applique, creating lovely designs with with embroidery and simple shapes of cloth. There NO transfers in this book for the appliques or the patterns seen in this book, but there are instructions for the various embroidery stitches and techniques such as Shadow Applique, Net Applique and Jacobean Crewel Embroidery. The photos are big and clear, and the simple shapes would be very easy to replicate even with the mail-away transfers. A beautiful technique and a rare find for the Weldons series!
