

Scrap House Quilt: Free Piecing Techniques

Katharine Guerrier shows how to create her freely pieced house blocks and put them together to make your own lively and quirky scrap house quilt. Quilts using this formula can be made any size, incorporating different elements and techniques: novelty fabric for gardens, farmyard or sky, curved seams for landscape panels, block samples left over from previous projects and oddments of fabric you will almost certainly have in your scrap bag. By following these guidelines and techniques, and adding your own ideas, orphan blocks and variations, your quilt will be unique. The interest is kept up as you work because decisions are made as you construct the quilt. Its almost as if you can make it up as you go along! This ebook in pdf format has video clips of the author demonstrating techniques.
