

Pewter Plus

Pewter work is a versatile craft suitable for everyone, all you need to succeed is the passion to experiment and a certain amount of creative flair. Extensive materials and tools section introduces you to all the essential equipment. Projects progress from the quick and simple, allowing crafters to hone their skills and to gain confidence before moving on to more complex designs. The template section contains project motifs meaning there is no need for expert drawing skills, all the patterns can be photocopied and traced. Pewter combines well with other metals, such as copper, and can be embellished with paints and beads enabling you to create an infinite variety of finishes.
