

A Guide to Creating Your Own Internet Radio Station: You Can Do It for Free Also

So you think you have what it takes to be a DJ and broadcaster? Awesome news for you! And guess what? This is very lucky news for you because today's technology allows anyone who wants to do what was once limited to a very small percentage of people to do it. But now you can become an online/Internet DJ and/or broadcaster! You can actually be the DJ, the station manager, and even the program director who decides what to play on the station because it's all on the Internet! There are several ways and approaches you can take in creating a streaming Internet radio station. Which one you decide to choose depends on what your goals are and what type of ways you wish to go about doing them. If you are really motivated and inspired to start an Internet-based radio station that operates for the sole purpose of profit and revenue generation, your direction and approach will be different from the individual who just wants to set up an Internet radio station for the purpose of simply sharing his or her favorite opinions, information, or music with friends or people with the same interests as his or her own. There are many excellent options for the beginner that require very little technical knowledge. If you know how to create or put together MP3 format files, upload them to a server, and then choose some options, you can reach a worldwide audience! If this really interests you, keep on reading because you're about to enter the world of online radio.
