

American Inventors: An Inside View of the U.S. Secret Government in Action (Observando) (Volume 1)

Do you want to know why most of the people who run this country belong to the same organization? Do you want to know why JFK was assassinated and by whom? Why didnt the U.S. military scale down at all after the fall of the Soviet Union, our biggest enemy? Why has the U.S. become the police force of the world? Who is really running America? Is there a Secret Government of the U.S.? Do you want to know why we are not winning the War on Terror? Do you want to know why America is becoming a Third World country with just two social classes: the one percent super-rich and the hyper-poor?

Do you want to know why if we dont stop the New World Order right now, we better put all our valuables in a backpack, and get ready for a fast escape from the U.S., perhaps sooner than you think? Do you really want to know? American Inventors is a political satire comic book offering a politically incorrect inside view of the Secret Government of the U.S. in action, and how this small group of oil magnates, international bankers and CEOs of transnational corporations ensconced in the Council on Foreign Relations control their puppets in the three branches of the U.S. government, the academia and the mainstream media. In this book you will find out who they are, what they want, and why they are working so hard to destroy America as we knew it.
