

# The Investors Keeper: What Investors Do Wrong and How to Protect Your Money

Learn from others mistakes to make more money in the markets The Investors Keeper shows you how to invest successfully by avoiding the mistakes everyone else makes. Written by investment authority Douglas Kass, this book gives you advice and guidance from one of the most renowned market gurus in the world to help you straighten out your investment strategy and strengthen your portfolio. Kass explains the pitfalls and missteps that trap investors, and shows you the expert maneuvers that help you avoid them. Anecdotes of financially catastrophic mistakes illustrate the value and urgency in the strategies presented, and a showcase of bad advice shows you what myths and legends you should stay far, far away from. Successful investing is as much an art as it is a science, and mistakes do happen. But when the opportunity arises, it's always better to let others make the mistake for you, so you can learn a lesson and move on without damage. This book uncovers the lessons learned by investors who have lost millions, and shows you exactly why it happened the way it did. Learn the common mistakes investors make. Implement time-tested strategies for getting it right. Take lessons from tales of financial disaster. Examine the tricks you should avoid at all costs. Paralysis by analysis is rarely a good thing, but taking the time to learn from the experiences of the pros is always beneficial. These investors learned the hard way, but that means that you don't have to. The Investors Keeper walks you through the mistakes others make so you're better equipped to make the right choices in the market.
