

Old Testament Survey (Logos School Materials)

Covering an entire year, this is our 7th grade Bible class as taught by T. Marston. This version includes the answers! This study guide emphasizes important historical characters and places within a chronological framework. The major theme is the Bible as Gods revealed will and His loving provision for our salvation; thus, it stresses Messianic connections. A foundational assumption is that the New Testament builds on the Old. Underneath is a desire to help students see how Scripture applies to all aspects of their lives, and that all Biblical characters were real people, living in real places, who made choices to be obedient or not obedient - just like themselves!
