

Unearthing Natures Secrets

Unearthing Natures Secrets is a memoir of great adventure and faith. Dr Klein, a visionary born in Germany at the end of World War II, has lived through some of the most profound and significant events of the last century-and has consistently sought to be on the cutting edge of history. Dr Klein was introduced to forest herbs by his grandfather. Even in poverty-stricken, post-war Germany, the value and magic of nature was clear to him. Based on this experience, Dr. Klein went on to delve into science, alchemy, chemistry, naturopathy, psychology and spirituality-all the while seeking to understand and unearth the true secrets of nature. Moving to Australia, he founded Jurlique, producer of bio-dynamic/organic beauty products known as the purest health care products on earth became a pioneer in the field of health and wellness, helped to pave the way for the spa/wellness industry of today. Jurlique product and service was used in spa treatments on athletes during the 1996 Atlanta and the 2000 Sydney Olympics. Throughout his life journey, Dr Klein has personally encountered some of the most forward-thinking minds of our time, and writes vivid, candid and mind-opening anecdotes of his experiences with Krishnamurti, Suma Ching Hai, Edward de Bono, Robert Kyasaki, Bert Hellinger, Helen Menock and Frater Albertus, among others. Dr. Klein has never looked back but only forward, journeying to Tibet on his sixtieth birthday and settling in Hawaii after to start anew. Continuing his pioneering efforts in health and wellness, Dr. Klein recently invented the JK7-Spa Sencator TM, a remarkable and well-engineered spa/wellness and anti-stress feature that allows people to experience clarified, balanced and harmonized senses and deepest relaxation for body, mind and psyche, a true Now Experience.
