

# BRAINWORK: The Neuroscience Behind How We Lead Others

Finalist 2012 USA Book News Best Book Award Finalist ForeWord Reviews 2012 Book of the Year Award The success of your organization depends on your ability to prioritize, focus, and act. What if you could reinvigorate productivity, expand your creative vision, and become a better leader by simply thinking differently about thinking? David A. Sousa examines the most provocative brain research as it relates to organizational leadership. By understanding the way the brain perceives, plans, and impacts your behavior, you'll more effectively influence both your internal and external customers. Discover ways you can train your brain to:

- Deal with information overload.
- Manage the emotions of a crisis.
- Ignore irrelevant information.
- Work most effectively with colleagues.
- Solve problems by thinking differently.
- Cultivate and develop creativity.
- Control stress in the workplace.
- Nurture a healthy brain.
