

## Chair Seat Weaving for Antique Chairs

Catherine Burr Sober presents a complete set of instructions for chair caning and also good advice. Remember: Chair weaving or Caning is an art born in a time before cars. It was brought to England from Portugal by Queen Catherine in 1662 and became the new fashion in furniture for England and her colonies. The English were enchanted with their new ventilated chairs for the hot sticky summers. America imported the English caned chairs first, but then set out to make her own chairs, importing the cane from English colonies in the Far East. Caning has never been a production line craft. There have never been any shortcuts or easy ways to speed up the craft - just the goal of perfection. Give yourself the time to enjoy it, savor it, return to a measured leisurely way of life. No rush, no pressure - its a novel feeling today.
