How to Find a Job with Recruiters? (This book is Currently a Best Seller on Amazon in the Job Search and Money Making Categories) - How My Salary Jumped from \$41,000 to \$120,000 Overnight and How You can Do It Too... How My Salary Jumped from \$41,000 to \$120,000 Over Night Back in 1994, I was working for an insurance company full time, making \$41,000 a year. I was happy with my payment. But my wife was a bit worried because friends started to buy a condo or a townhouse but we didnt have the money. One day, I got a call from a stranger, claiming that she was a recruiter. She said that she found my resume a good match and wanted to place me for a job interview of IBM. The salary? \$120,000. By the time, the Internet was still in its baby stage. I had no clue how she found my resume. But I went to meet her anyway - heck, I got nothing to lose, right? Luckily, I went. And I was lucky enough to get the job, too. Ever since, Ive been working for quite a few large corporations with the same kind of dream jobs, such as:

- American Express
- Target
- Best Buy
- The Government

Many of My Students Have Enjoyed the Same Success, Too... In the last few years, I have been teaching people how to find the same kind of jobs as an adult training course in college. Among the few hundred students, many of them found their dream jobs soon after they finished the course, and started to work for the companies like:

- Internet/phone service providers (such as Bell Mobility)
- Large financial institutions (such as banks, insurance companies, and credit card companies)
- Software vendor and consulting companies
- Government, and government owned companies (such as utility, nuclear power stations, transportation, and health care)
