

Childhood Under Siege: How Big Business Targets Children

Corporations have found a new resource to be mined for profit: our children. In this shocking and indelible behind-the-scenes journey, Joel Bakan, acclaimed author and award-winning maker of the renowned film and international bestselling book *The Corporation*, uncovers the astonishing degree to which companies exploit the special vulnerabilities of children, manipulate parents fears, and operate with callous disregard for childrens health and well-being. The number of children taking dangerous psychotropic drugs has skyrocketed as pharmaceutical companies employ insidious, often illegal tactics to inflate diagnoses of disorders and convince parents their children require medication. A highly sophisticated marketing industry deploys increasingly subtle and powerful tactics to play on childrens intense emotions and desires and to lure them into obsessive consumerism. Computer game designers craft techniques to titillate children with sex and violence, while social media developers infiltrate and shape childrens social and emotional worlds to compel them to spend more and more monetizable time online. Americas schools are being transformed into profit centers while children are subjected to increasingly regimented teaching that thwarts curiosity and creativity, numbing the joy of learning. And childrens chronic health problems, from asthma to cancer, autism, and birth defects, steadily escalate as thousands of new industrial chemicals are dumped into their environments. Nelson Mandela once sagely remarked that there can be no keener revelation of a societys soul than the way it treats its children. The problem today, as Joel Bakan reveals, is that business interests have made protecting children extremely difficult. Corporations pump billions into rendering parents and governments powerless to shield children from an unrelenting commercial assault, with the

result that after a century of progress, during which protective laws and regulations were widely promulgated, children are once again exposed to substantial harms at the hands of economic actors. Childhood Under Siege leaves no room for doubt that this assault on childhood is a major crisis of our time. A powerful manifesto for urgent change, it empowers us to shield our own children while offering concrete and realistic proposals for legal reforms that would protect all children from these predatory practices.
