

## Secondo Keynes (Pamphlet) (Italian Edition)

A settantanni dagli accordi di Bretton Woods la conferenza che stabiliva, con la guerra non ancora conclusa, le regole delle relazioni commerciali e finanziarie tra i principali Paesi industrializzati del mondo questo libro di Carabelli e Cedrini torna a occuparsi dello studioso che più di tutti ha segnato il Novecento con la sue proposte economiche e politiche, per i tempi rivoluzionarie: John Maynard Keynes. Nel discutere dell'attualità dei piani di riforma globale proposti dall'economista di Cambridge per il mondo del secondo dopoguerra, questo volume ci mostra come lo sguardo di Keynes, pensatore della complessità, sia utile a capire e risolvere i guasti seguiti al crollo del sistema di Bretton Woods: dal neoliberismo del Washington Consensus all'equilibrio del terrore dei global imbalances, alla crisi globale e infine europea, con il prevalere di dottrine e politiche dell'austerità.
