

Discovering Your Career

Help tomorrow's workers begin to build their futures today! Taking the unique approach of matching a career to one's personal interests, *Discovering Your Career* focuses specifically on self-understanding, self-acceptance, career information, goal setting, networking, team building, education opportunities, and the job search process. Traditional and non-traditional career choices are discussed, as is the importance of planning a career while still in school. A unique Career Portfolio CD, included with each text, contains the following career-planning tools:

1. Forms needed to complete chapter exercises
2. Hot links directing students to additional information, to assist in completing assignments, and career exploration
3. Sample documents, resumes, cover letters, thank you letters—all of which provide examples of realistic correspondence. By using this Career Portfolio CD, students will have a completed professional portfolio at the end of the course.
