You started to eat better and work out to improve your health and build a body you love. But, along the way, something happened. You read a lot of conflicting nutrition information, you started restricting foods, you combined that with working out even more, and then before you knew it - you were constantly obsessing over what you ate, weighing yourself on a daily basis, trying to improve your flaws. What began as a journey to improve your health and fitness became a daily battle with hating your body, working out all the time, and constantly obsessing over food. And its time to break free.
