

Lets Count Cupcakes!: A Counting, Coloring and Drawing Book for Kids

Learning is sweeter with cupcakes! Your child will love learning about numbers, colors and drawing tips in this fun, interactive book and coloring journal. Filled with colorful, eye-catching illustrations and coloring pages too. Your child will feel like they have contributed to the book when they see their drawings in the book - a special memory for you two to share! This book is perfect for toddlers just learning their numbers and colors, and also preschool aged children wanting to show off their reading and coloring skills to mom and dad. In the back of the book you will find drawing tips to teach children how to draw their own cupcakes, as well as coloring book pages for coloring activities for you and your child. A creative activity your child will love! A great gift for baby showers, birthdays, holidays, or even just a road trip to visit grandma and grandpa. With a new box of crayons, your child will light up when they open the book for the first time and realize that they can actually color in it too (and not get in trouble)!
