

## Macroeconomics (with InfoTrac) (Available Titles CengageNOW)

Offering a unique blend of solid theoretical content and student accessibility, this text: 1) covers all the basics of macroeconomics, 2) gives students a clear idea of how economists think about the world, 3) stresses the key concepts in economics, and 4) is extremely rich in intriguing applications that convey the prevalence of economics in everyday life. Many principles instructors are constantly challenged with the goal of getting students excited about realization that economics is everywhere! Arnold has taken this to another level. He is so passionate about touching his students that he felt the need to write a Macroeconomics text that is dedicated to opening the science of economics through the pictures and applications of our lives. Arnold is considered the most innovative author in this market to meet the fast pace interests of both instructors and students. His five themes of Theory and Model building, Key Concepts, Primary and Secondary Consequences, Real-World Applications, and the idea that Economics is about gifts, exchanges, and transfers, set the tone for a teaching text that is extremely approachable by instructors and students.
