

Keeping Reptiles & Amphibians in the Classroom

Keeping Reptiles and Amphibians in the Classroom is the perfect resource to use before attempting to keep these animals in your classroom. It will make your experience easier by answering many questions, including: why keep reptiles? What species are the best to keep at school? What kind of cages do I need? How do I secure the cages? How safe are they? Now that I have them, what do I do with them? It is my hope that, using this resource, you will have a positive experience right from the start.
