

## Floral Needlepoint

This glorious book, by one of the leading crafts designers, contains 20 gorgeous new needlepoint ideas on refreshing floral themes all inspired by the natural beauty of our gardens and countryside, Lilies of the valley and lavender, primroses and poppies, sunflowers and irises, violets and wild strawberries: motifs such as these lend themselves to needlepoint, Each exquisite design will encourage you to create beautiful gifts for family and friends from fabulous footstool covers and firescreens to pretty picture frames, colorful cushion covers and richly patterned rugs, even an original clock based on the dandelion.
