

Governing With Soul: How Joy, Courage, and Compassion are Taking Charities to the Next Level

Governing With Soul brings a spirited approach to the important work of governing charities. Through interviews with 53 charities and foundations in Canada, the U.S., England and Ireland, this book celebrates the creativity and spirit of organizations who practice governing with soul, and who have, as a result, achieved outstanding success with their missions. With over 80,000 registered non-profits in Canada, almost everyone is affected by or involved in the important work of these organizations and their boards. By providing useful information shared from the direct experience and insights of people on soul-wise boards, this book offers practical, innovative ideas for non-profit boards and those who work with them. Governing With Soul will help you achieve board and organizational excellence.
