

Help Wanted: Inquire Within : Where to Find More Jobs in Less Time

Only 10% of available jobs are listed in the help-wanted ads. Many unemployed people have never had to seek employment since landing their first job. Most job seekers look only to the help-wanted ads for potential positions. They don't realize 90% of the available jobs are not listed in the newspapers. Help Wanted: Inquire Within is the job-searchers instruction manual that makes it easy to find employment positions not generally advertised. This book will help you locate a job, while other people complain about the lack of opportunity. Here is what previously-unemployed people have said about the techniques found in Help Wanted: Inquire Within:
