

Phone Interview Checklist

Mastering the phone interview has become more important in recent years as recruiters and hiring managers have to leverage their time due to the increase in applicants and competition for each position. In the past, you would have been called in for a face-to-face interview, but now hiring professionals have to get through the screening process more efficiently and that means more phone interviews. This phone interview checklist provides you with a comprehensive worksheet to review when you are preparing for a phone interview. (Check out Brenda Codys In-Person Interview Checklist for your in-person interviews). A phone interview, which typically takes place earlier in the interviewing process, is mostly a pass/fail proposition. Either you will move on to the next phase of the process, or you won't. Ensure you do everything you can to pass and buy this checklist! This is a very thorough checklist and it's recommended you review it IN ADVANCE of any potential phone interview to make sure you complete all the checklist items before your phone interview!
