

## Our Stars ... Day by Day in Their Ways

Thomas Fritz is not afraid to embrace life and all that it encompasses. In his first collection of eighty short poems, he reflects on a variety of topics that include friendship, motherhood, nature, passion and relationships that lyrically illustrate how we live, interact, and love within a complicated world. *Our Stars Day by Day in Their Ways* shares one mans poetic, sometimes amusing musings intended to inspire, provide hope, and encourage happiness within.
