

Become You

Become You is Dr. Holtzclaw's latest book, and is unlike anything she has written before. Don't miss this one - It was well worth the wait. Teri Kai Holtzclaw, Ph.D. specializes in Bariatric Counseling and is affiliated with and a member of, the following organizations: The American Society for Bariatric Surgery, The American Society of Bariatric Physicians, The International Federation for the Surgery of Obesity and the American Obesity Association. I have one goal for this publication - It is to bring a greater awareness of how our mental health does reflect upon our physical health. A mentally healthy patient has a greater chance of long-term weight loss than the patient who focuses only on their physical transformation. Body image begins on the inside and works its way out.
