

## Is the Bible falsified?: Booklet 13 in the 1000+ Mistakes in the Quran series

Muhammad took his Biblical stories from legends, made up apocryphals, etc., not from the Bible. This gave many differences between what he claimed the Bible said, and what it really said. He claimed - like normal for him no proofs - that the reason was that the Bible was falsified. If the Bible is not falsified, much of the bottom falls from under Islam.
