

Islam: Religion, Practice, Culture & World Order

In this study, Al-Faruqi presents the meaning and message of Islam to the wider world community. Key elements of the faith are summarized and explained in an overall theme of seven parts consisting of 21 chapters. Yet the chapters represent far more than a simple description of Muslim peoples and orthodox practice. Al Faruqi was a great thinker, formidable in logic, and relished intellectual engagement on every level, particularly when it came to Islam and other Faiths. And it is this unique reasoning process that is reflected in this work, Al Faruqi's signature contribution, which not only expounds on Islam as spiritual faith and action, but also on Islam the great experience.
