

The World Market for Travel Sets for Personal Toilet, Sewing, or Shoe or Clothes Cleaning: A 2004 Global Trade Perspective

OUR APPROACH This report was created for strategic planners, international executives and import/export managers who are concerned with the market for travel sets for personal toilet, sewing, or shoe or clothes cleaning. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics that appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for travel sets for personal toilet, sewing, or shoe or clothes cleaning for those countries serving the world market via exports or supplying from various countries via imports. I do so for the current year based on a variety of key historical indicators and econometric models. On the demand side, exporters and strategic planners approaching the world market face a number of questions. Which countries are supplying travel sets for personal toilet, sewing, or shoe or clothes cleaning? What is the dollar value of these imports? How much do the imports of travel sets for personal toilet, sewing, or shoe or clothes cleaning vary from one country to another? Do exporters serving the world market have similar market shares across the importing countries? Which countries supply the most exports of travel sets for personal toilet, sewing, or shoe or clothes cleaning? Which countries are buying their exports? What is the value of these exports and which countries are the largest buyers? In what follows, Chapter 2 begins by summarizing the regional markets for imported and exported travel sets for personal toilet, sewing, or shoe or clothes cleaning. The total level of imports and exports on a worldwide basis, and those for each region, is based on a model which aggregates across country markets and projects these to the current year. From there, each country represents a percent of

the world market. This market is served fro
