

Laudato si (Documentos MC) (Spanish Edition)

El Papa Francisco acaba de publicar la primera enciclica sobre ecologia, seis meses antes de que se produzca la Cumbre de la ONU en Paris sobre el Cambio Climatico. En la enciclica, que lleva como titulo la expresion italiana Laudato si en castellano, Alabado seas, el Papa muestra su preocupacion por aquellas cuestiones que tienen que ver con el cuidado de nuestro planeta: el cambio climatico y el calentamiento global; la contaminacion producida por los residuos no biodegradables, toxicos y radioactivos; las energias renovables; la corrupcion en el mercado internacional del petroleo o el consumo personal de las energias, entre otras. Tambien hace referencia a la contaminacion en nuestras vidas del mundo digital, de las nuevas tecnologias y mas en concreto de las redes sociales. El Santo Padre recoge el extenso magisterio de san Juan Pablo II y de Benedicto XVI. Resultan novedosas las referencias que hace al magisterio del patriarca ecumenico de Constantinopla, Bartolome I, en temas como el cambio climatico, la deforestacion y la destruccion de los humedales. No se trata de un texto dirigido solo a catolicos, sino que el propio Papa invita a todas las personas a reflexionar en serio, pues nunca la humanidad ha tenido tanto poder sobre si misma, y nada garantiza que lo utilizara bien.
