

Temple Bricks: Salt Lake Temple: Construction Toy Building Instructions (LDS Temple Series) (Volume 8)

Designed after the most internationally recognizable temple for the Church of Jesus Christ of Latter-day Saints, this model attempts to replicate as much of the exquisite detail found on the Salt Lake Temple as possible. In addition to replicating the castle-like battlements this model also includes the 1966 building addition that houses additional sealing rooms. Children and adults alike will love assembling this beloved building over and over again. Using only 220 pieces over 34 steps, this model was meticulously planned and designed to be an easily recognizable representation of the Salt Lake Temple while also providing the challenge and fun people are looking for in a building toy. Please Note: This is the instruction manual only. Does not include bricks. Also, colors of bricks shown in manual may be different from those available.
