

Light of The Second-Eyes (Patchwork Cerberus Book 0)

Ten years ago, there was a massacre of children who were kidnapped and experimented on in a special project to replicate the supernatural abilities of a Light. However, a few of them escaped. Discovering the atrocities that took place on the floating continent of Shooting Star, the factions of Comet and Meteor waged a great war against it. A battle which they eventually lost. Now, a translucent castle suddenly appears in the middle of the floating continent. And the remaining Second-Eyes, owners of their unique Lights, are dragged into a battle to save their past selves and their existence. Against the enemy that threatens to complete the massacre. And at the very end... Theyll have to face their greatest nightmare. An Anime-styled Light Novel book full of heart-pumping fights and clashing resolves!
