

Masterful Machine Pieced Quilts

Create your own machine-pieced quilt masterpiece! Inspired by the stunning mosaic floors of the Truro Cathedral in England, Jean has developed piecing techniques for everyone to re-create those fabulous designs in fabric. Her clear, step-by-step instructions will guide the quiltmaker through the entire process. Starting with a simple star design, Jean shows you how to draft directly onto freezer paper and mark, number, and use the pattern to sew perfectly matched pieces. Nine stunning projects ranging from simple to detailed and from small to large are designed to appeal to quilters of all skill levels. Using Jean's meticulous freezer-paper piecing instructions will result in perfectly flat quilts. A CD of master patterns is included.
