

Otherworld Barbara

In this classic science fiction thriller by one of the most influential manga writer-artists of all time, there are dream pilots, murderous cannibal nine-year-olds, and more. Fantagraphics Books is proud to present the first volume (of two) of Moto Hagio's *Otherworld Barbara*, in which Tokio discovers a phantom island named Barbara. Then there's a mysterious and missing geneticist, an eccentric clergyman, a grieving grandmother granted temporary youth, a psychologist killed by a freak tornado. Hagio offers a sci-fi explanation for these seemingly random paranormal elements, and makes it all matter with believable characters in complex and subtle relationships. This book won the Nebula Award of Japan (Nihon SF Taisho Award) in 2006. black & white illustrations with some color.
