

# The Starving Family: Caregiving Mothers and Fathers Share Their Eating Disorder Wisdom

We've heard from experts, and we've heard from patients...now it's time to hear from families. In this first of its kind book, author Cheryl Dellasega offers a guide for family caregivers of persons with eating disorders. Culled from the experiences of over a dozen diverse families who have been there, done that, this book covers new territory on how to cope at home when anorexia, bulimia, or EDNOS strikes a loved one. Using the wisdom of mothers and fathers who have supported struggling daughters and sons 24/7, insight, support, and strategies are presented that will appeal to both parents and professionals.
