

Protecting the Future: Stories of Sustainability from RMIT University

Protecting the Future showcases tangible examples of the practical implementation of global sustainability and the triple bottom-line plus one (comprising environmental, social and cultural economic and governance dimensions) in the scholarship and operations of RMIT University. These practical initiatives, applications and methodologies can provide information and inspiration for individuals or organisations wanting to implement global sustainability principles in their planning and operations. Global sustainability is one of the fastest growing concerns around the world. Organisations of all kinds are increasingly aware that their future may well depend on their ability to create solutions to economic, environmental, social and cultural as well as governance issues.
