

Patents for inventions Volume 2 ; abridgments of specifications Class

This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1904 Excerpt: ...compartments, the compartment E forming the passage from the compartment D to the purifier or other part of the apparatus. In the position shown in Fig. 4, the purifier is in operation. The gas passes through the compartments C, D, E, G to the purifier, then returns through the compartment H to the valve, and leaves by the outlet L. The purifier is by-passed by turning the part B through half a revolution, and to adapt the valve to act as a stop-valve, the compartment E is placed over the covered compartment C. 1171. Greenwood, J. April 1. Letters Patent void for want of Final Specification. Pressure-regulating valves.--In order to control the supply of steam to a steam engine according to the pressure, a box is interposed in the steam pipe, and the admission to the box is controlled by an oscillating disc valve, which is adjusted according to the pressure in the box by a piston or valve acted on by springs and communicating with the box. For this purpose the spindle of the piston valve is attached to one end of a lever, the other end of which is connected by a connecting-rod to a crank on the spindle of the disc valve. FIG.2. 1194. Bablon, V. April 2. Pressure-regulating valve.--A pressure-regulating valve for gas, steam, or liquid consists of a cylinder C fitted with screwed lids A, B and a fixed internal diaphragm D. The lid A is open throughout and the lid B on which the gas burner or other device is screwed is pierced by two holes G leading to the central opening. Between the holes G is a conical depression V. A free piston P, kept central by projections on its periphery, carries a tube T open at each end and passing freely through the diaphragm D. Between the

piston and diaphragm one or more slots I are cut in the tube T, and in the bottom of the tube...
