

Return on Sustainability

Climate change is the challenge of our generation. Wilhelm offers hope, and his new Return on Sustainability is a groundbreaking process that demonstrates to businesses the qualitative and quantitative benefits of taking action today. Robert F. Kennedy Jr. Wilhelm provides a comprehensive full-systems perspective that enables executive, managers, and employees to understand how their job is tied to climate change - both from a risk and an opportunity perspective. Gifford Pinchot, Co-Founder, Bainbridge Graduate Institute Inspiring, practical, a must-read for any executive wondering how climate will impact their company. David Johnston, President of Whats Working, and a co-founder of the Green Building movement in the United States A perfect balance between inspiration and instruction, this is a practical, how-to guide for any business leader looking to green their business. Laurie David, StopGlobalWarming.org Kevin Wilhelm is an expert and national thought leader in the field of business and climate change. He is the CEO of Sustainable Business Consulting, a Seattle-based firm focused on profit improvement through the use of sustainable business and climate reduction practices. Kevin brings 13+ years of bottom-line business experience to the field, having worked with clients ranging from Fortune 500 multinationals to next generation renewable energy start-ups. Wilhelm is a nationally recognized speaker on the business of climate change and is the Chair of the Greater Seattle Chamber of Commerce Sustainability Committee. Kevin holds an MBA from the University of Denver, two Graduate Certificates from the Bainbridge Graduate Institute in Sustainable Business and Entrepreneurship and a BA from Macalester College.
