

Secrets of the Exodus: Did the Pharaohs Write the Bible?

This fascinating reference fuels the passionate debate about the biblical Exodus with a provocative thesis: Not only was Moses an Egyptian but so were the Hebrew people who followed him to Canaan. Through linguistic, philologic, and religious explorations, the authors prove that the Chosen People were not slaves from a foreign country but high-ranking Egyptian priests and the adherents of the monothiest pharaoh Akhenaton. During a counterrevolution against monotheism, his followers were forced to move to the Egyptian province of Canaan.
