

How to Buy and Sell Gold: A Start-Up Guide for a Cash for Gold Business: Gold is worth a lot, a first-hand account and advice from a person who bought gold - priceless.

How to Buy and Sell Gold: A Start-Up Guide for a Cash for Gold Business: Gold is worth a lot, a first-hand account and advice from a person who bought gold - priceless.

After reviewing other books in this category, we came to a conclusion that we were underselling this book. So, we decided to raise the price to something more adequate. The book is an honest account of first-hand real life knowledge. Its not chemical theory or compare-gold-buyers-before-you-sell internet article. Theres very little water in this book. The author doesnt sell the book inside the book (just preview any other similar books - youll see what I mean). Instead, he teaches the gold business in a very dense style. Its a crash-course for right now and a reference book for the future. Its about the gold, how to test the gold, how to determine fake gold and gold-plated jewelry. Its about opening a shop and dealing with customers. Or, if you are a customer you will find out where and how to sell your gold and silver for its real price. Have a look at the chapters: + Units + Markings + Equipment + The Gold Test + Silver + Fake Gold + Pricing + Watches + The Purchase + Selling Gold + Dealing with Client + Phone Conversation + The Shop + Shop Marketing + Security + Legal Requirements Its photo-illustrated, too. This is the real deal, the real knowledge, the real insight, the real roadmap. And a real bargain for less than a gram of gold.
