

The Peshitta of Daniel (Monographs of the Peshitta Institute, Vol 7) (Monographs of the Peshitta Institute Leiden)

The Peshitta of Daniel sets forth an analysis of the Syriac text of the Book of Daniel. It discusses the relationship of the Peshitta text of Daniel to the Hebrew/Aramaic text of this portion of Scripture, and its relationship to the Old Greek and Theodotianic versions as well. Making use of the Leiden edition of the Syriac text, it seeks to evaluate the text-critical value of the Peshitta of Daniel. It also describes various translation techniques employed in the Peshitta of Daniel and evaluates its qualities as a translation.
