

# ISO 5247-1:2004, Textile machinery and accessories - Weaving machines - Part 1: Vocabulary and classification

ISO 5247-1:2004 establishes a vocabulary of terms and a system of classification for weaving machines used in the textile industry for the production of woven fabrics by the weaving technique, i.e. by interlacing of two (or more) systems of parallel threads, and by machines using hybrid forming methods. This title may contain less than 24 pages of technical content.
