

## Critics of Keynesian Economics

Henry Hazlitt confronted the rise of Keynesianism in his day and put together an intellectual arsenal: the most brilliant economists of the time showing what is wrong with the system, in great detail with great rigor. With excerpts from books and articles published between the 30s and 50s, it remains the most powerful anti-Keynesian collection ever assembled.

Introduction By Henry Hazlitt  
Says Law By Jean Baptiste Say  
Of The Influence Of Consumption On Production By John Stuart Mill
