

# The Plundering of the American Birthright: The Decline of Our Ethics (Volume 2)

This book deals with the ethics of the people who go to work every day in America, either for our good or not so good. It examines our political professionals, our lawyers, teachers, the press, our businessmen (or women), our preachers, and others who would hold the honor of serving us. Are they all serving us, or serving themselves. This book also pulls the cover off of deceptive practices used in our governments and in the courts. If your ox isn't gored, there could always be a volume three!!
