

The Virtues Of Heifer Verses. Surah Al-Baqarah sentence 99-108 (Tafsir Al-Quran (surah Al-Baqarah) Book 12)

What is meant by the term (They followed what the devils read) are a group of Jewish priests and nuns. They are the people that God characterised with those who have replaced the Book of Allah revealed to Moses. In a long hadith, Imam Al-Saddi narrated, that the devils sit to hear news from the angels. What they heard were told to the healer, but those devils deny the news. They added the news until one sentence became seventy-sentences. Then, at the time of Solomon, Solomon sent the people to gather the rumors and it is in a box and buried under his seat. None of the devil that can open the box even to approach it. It was said that if one of them try to open it it will burn. Solomon said, I do not want to hear anyone say that the devil knows about hidden things, but will I cut his throat. While Solomon had died, the succession of time, the scholars who know the business of Solomon have gone, the devil appeared to exist as human beings and ordered the people to dismantle the chair throne of Solomon, dig and open the sky news box in it. Then, they say to the public, with this, the man, the devil and the birds are constrained by this magic, so had spreaded in human that Sulaiman was a sorcerer. Children of Israel made the book as their holy book, and only Muhammad been hostile to this book. The point is this verse is about the insult of God of the Jewish clergy. They know and believe that Allahs is the true messenger of God and they acknowledge that they and the predecessor just tried to follow what the devils had said about Solomon.
