

## El yerberito ilustrado (Spanish Edition)

En este manual practico de medicina herbolaria a la mexicana, Rius destruye los mitos oficiales y denuncia los intereses exclusivamente economicos de la industria farmaceutica. Ademas demuestra que gran parte de los medicamentos de patente han resultado toxicos. Explica despues las bases botanicas de la medicina herbolaria y enlista los principales medicamentos que tienen su origen en las plantas. Finalmente presenta el indice ilustrado de las plantas curativas mas comunes en Mexico, por orden alfabético y describiendo con detalle sus propiedades y usos principales.
