

Yiddishe Kop: The Book of Jewish Brain Teasers Vol. 1

Yiddishe Kop: The Book of Jewish Brain Teasers Vol. 1 offers 52 challenging lateral thinking puzzles with a Jewish bent. Great for havurah groups, family car rides, ice breakers or Shabbat afternoons. And true to Jewish form, more important than the answers is the ability of the players to ask good questions! The term lateral thinking was coined by Edward de Bono to describe how one solves a problem creatively by seeing it from different angles. Yiddishe kop refers to a Jewish logic which may have developed from traditional Torah study. Just as the Torah is compared to a diamond with 70 facets, allowing one to learn different lessons from phrases, words or even letters if viewed from the proper angle, the solutions to these puzzles may hinge on a similar type of detail. Recommended for ages 10 to adult. Makes a great Bar or Bat Mitzvah Gift. Play by yourself (using the clues) or with friends and family.
